

## Guidelines for Poster Presentations ICCS 2006

The official language of the conference is English.

Written text should be readable from a distance of 6 feet (about 2 meters).

The poster stands are 8 x 4 feet. Therefore, the maximum dimensions for posters are:

8 feet wide

4 feet high

Please do not feel obligated to consume the entire surface of the poster stand.

The mounting surface is fabric board. Neither the Society nor the host hotel will provide mounting materials. Presenters are responsible for bringing their own mounting materials. We recommend thumbtacks. Velcro tape or duct tape should also work.

Presenters will be responsible for setting up their posters before the session starts and removing their poster materials at the end of the session. Any materials left hanging on the poster stands after the official end of the session will be discarded.

Presenters must bring their own poster materials. Any presenters who ship materials to the host hotel in advance will pay their own shipping, handling, and storage expenses (please contact the hotel directly).

For any special requirements, please contact Kevin\_gluck@hotmail.com
